## STATE OF THE REGION BREAKFAST GOES LIVE WITH INTERACTIVE POLLING

The State of the Region Breakfast brings important issues to the forefront with a real-time focus on what's happening in the Lowcountry. One of the community's most popular events, 600 people attended last year to find out how our area leaders are tackling the biggest issues shaping our regional economy.

Live interactive polling will once again play an integral role, and attendees will get to be part of the process. Join the Hilton Head Island-Bluffton Chamber of Commerce for the 15th Annual State of the Region event and be part of this important, interactive forum.

Cast your live electronic vote at the event for the issues that define this year's regional agenda, and hear how our leaders respond. With interactive polling, you help determine which issues take the floor.

Hilton Head Island Mayor Tom Peeples, Bluffton Mayor Lisa Sulka and Beaufort County Council Chairman Weston Newton will discuss issues and address concerns important to business, tourism, and our quality of life throughout the region.

# TOP MANAGEMENT ADVICE FROM LEADERSHIP LEGEND

Great leaders know how to lead and inspire. Renowned leadership authority Betty Siegel, Ph.D travels the world, speaking the language of leadership.

On October 22, she brings her message to the Lowcountry in "The Leader Within."

This marks the second of our chamber series on leadership. Former Disney Executive Lee Cockerell, kicked off the series with his powerful business leadership seminar "You Can Create Magic Too."

Dr. Siegel has been known to create magic of her own, serving as the first female dean at Kennesaw State University and first woman president of the Georgia Regents System of 34 colleges and universities.

Siegel has taken her message worldwide from global initiatives to private audiences with Archbishop Desmond Tutu and the Dalai Lama.

This month, the chamber presents the opportunity for you to learn from Siegel on inspiring yourself and your team.

*"Who am I? Where do I come from? Where am I going?"  
Siegel had this remembrance rock placed on the grounds  
of Kennesaw State University, inspired by Carl  
Sandburg's novel. Siegel added two more:  
What is the meaning? And how do I matter?"*

*"Showing trust, understanding  
and respect is what truly frees  
people to want to do their best."  
— Betty Seigel, Ph.D.*

## Better with Natural Gas

Whether you're building a new house or renovating an existing home, clean burning natural gas is your environmentally friendly energy choice. Natural gas appliances not only make everyday life better, they're cost-effective to operate, generally last longer and require little maintenance. In addition to the actual environmental benefits of lower emissions, plus high-energy efficiency, more than 80% of the natural gas used in the U.S. is domestically produced.

A home with natural gas reduces your impact on the environment without sacrificing comfort and convenience. If you want to make your home a little greener, while enjoying the comforts of home, ask for natural gas. To learn more, call **Parks Moss at 843-815-8808** or **Melanie Bullman at 843-815-8818**.
