The shoreline is densely lined with lush green trees, creating a thick forest backdrop. In the distance, a small cluster of buildings and a parking lot are visible on the right side of the lake. The sky is a clear, pale blue with a few wispy clouds.

2023-2024 Destination Marketing Plan

The ultimate goal of the marketing strategy is to drive qualified visitation to the destination through a series of demand creation and demand capture marketing activations. The strategies support the discovery and exploration of experiences that exist throughout the Town of Bluffton.

Digital Marketing

The proposed approach to the Town of Bluffton's marketing plan, outlined below, is meant to communicate how Bluffton, Heart of the Lowcountry™ - can best be experienced by a diverse group of target audiences.

From the May River to arts and culture, culinary, and outdoor activities, and a vibrant and authentic local community, the Town of Bluffton is perfectly positioned to meet the needs and interests of today's travelers.

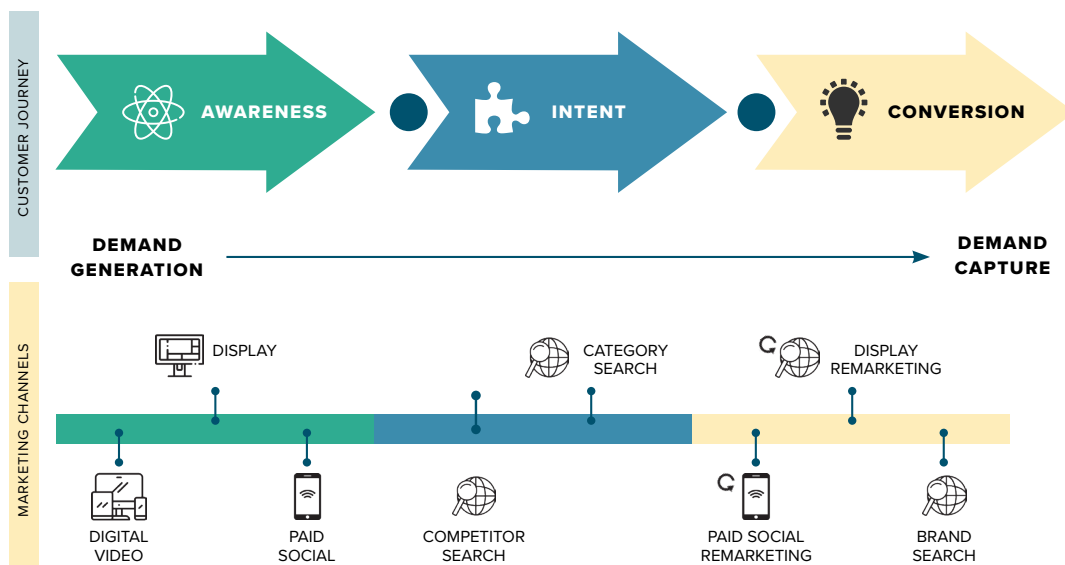

The marketing plan is designed to be highly personalized, flexible, and results-oriented. Each individual campaign that is implemented to drive exposure for the destination will be deployed based on a series of defined goals that align with each persona, and the overarching goal for the marketing plan.

The Customer Journey

Our role as a destination marketing organization is to captivate qualified visitors by creating an emotional connection to the destination through targeted communications and compelling brand storytelling. A full-funnel marketing strategy to drive increased optics and referrals to partners throughout the region is required. Our efforts will place a specific emphasis on more awareness-focused marketing channels, using immersive and authentic brand content to reach new, qualified prospects the brand can deliver for our partners. We will feature locals and businesses throughout our efforts with authentic storytelling. We will continue to nurture repeat visitors and brand loyalists with our mid-funnel tactics.

Conversion Focused Digital Marketing

The digital strategy is simple in that regardless of the channel strategy, each campaign is continuously optimized to drive increased conversions for the Town of Bluffton. The strategy will remain nimble, and scalable and all media purchased to drive exposure for the Town of Bluffton brand will be 100% measurable. As each phase is focused on a different goal and intent, measurements and benchmarks unique to Awareness, Intent, and Conversion are established to provide a holistic view of success.

Content Commonwealth

The production of data-informed content that showcases the destination using our authentic lens is core to the ongoing integrated marketing strategy. The destination no longer operates in an environment where one-off artifacts of content are produced to serve a specific purpose in a particular channel. Instead, as content is produced to support the overall goal of the marketing plan, the strategies will focus on how content can live across the entire marketing ecosystem. This helps all content work harder for the destination while ensuring we connect with the right audience at the right time in their journey with the most relevant content based on their key travel motivators.

Traditional print and broadcast through the website, digital marketing, and social media efforts will share a consistent creative tonality to ensure the brand tone and voice are effectively communicated through each medium.

Search Engine Marketing

We will continue to execute a search engine marketing (SEM) strategy to expand and broaden our organic rankings on major search engines. We will use a targeted list of key search terms that best correlate with the Town of Bluffton's core audience segments and align with the key pillars mentioned in the executive summary.

Our efforts will align with our target consumers and influence them to visit the Bluffton website, ultimately directly increasing partner referrals.

Display & Remarketing

The primary goal of display marketing efforts for the Town of Bluffton is to cultivate consumers who have expressed interest in visiting Bluffton as noted by their online behavior, and then push them to the VisitBluffton.org website to explore, engage and ultimately book travel to the destination. Prospecting and native display banner partners will be distributed via:

- Facebook
- Instagram
- Google Display Network

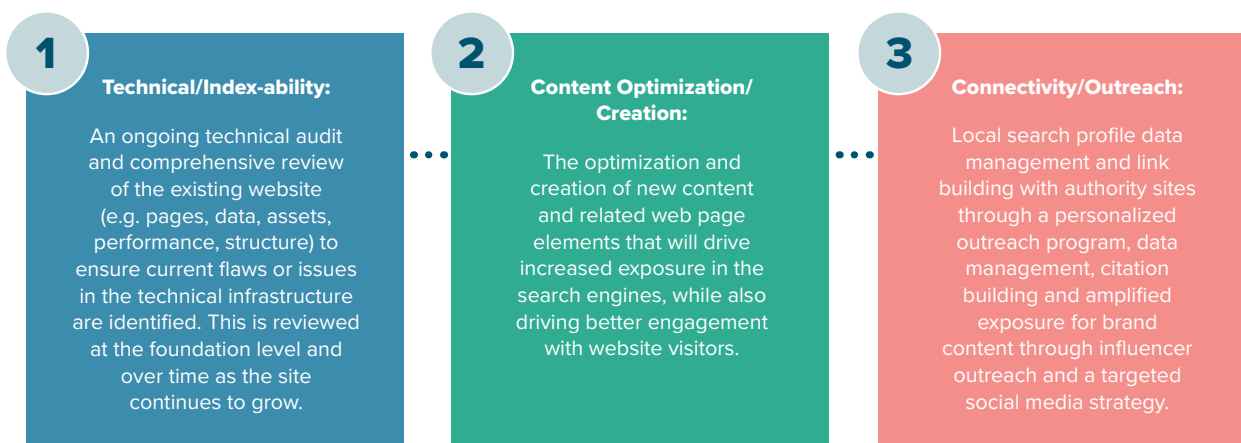

Display remarketing is used to reinforce the Town of Bluffton as the ideal vacation destination by serving ads to those who have visited VisitBluffton.org. By implementing multiple windows, we can adjust bids and messages depending on where the consumer is in the travel journey.

Search Engine Optimization (SEO)

Search engine optimization (SEO) and content marketing is about getting found for the right reasons by people who matter to our brand. Our approach to ongoing SEO marketing initiatives is multifaceted and comprehensive. SEO starts with the very basic concepts of accessibility and indexability—being discovered by the right people for the right types of content—and spans to site architecture, social

media engagement, and long-term content marketing programs and backlink strategies.

To put it simply: we assess, build a strong foundation, analyze the results, and continue to build on the strategy over time. The ongoing SEO program for the Town of Bluffton can be broken down into 3 core areas:

We will work with the Town of Bluffton to create and enhance the content strategy for the destination. It's critical that fresh, quality content is created to drive increased engagement and more natural search traffic to the website. This will be done with the publishing of regular blogs on the website, developed by the content team.

We will conduct research to identify content marketing opportunities to optimize blog content. This will open the site to new opportunities to build traffic from a natural search traffic perspective. Blog URLs should also be used in social media posts to help increase website traffic and engagement.

Specifically, we will provide recommendations about optimizing current content and creating new content and related page elements that will drive increased search engine exposure, leading to better engagement with website visitors. Initially, optimization will be focused on identifying content areas on the website that require attention, while identifying gaps for future content creation that will need to be addressed based on ongoing competitive analysis and the monitoring of search interest trends. We will also regularly monitor the site for duplicate content and reduce or remove where possible to avoid redundancies.

The Destination Website

VisitBluffton.org is an integral part of the destination marketing efforts for the brand and serves as one of the first touchpoints for Bluffton. We will continue to dive deeper into identifying qualified visitors, ensuring a streamlined experience and ultimately sending relevant leads, in the form of qualified traffic, to partner sites. We will refresh copy as needed and create new engaging content to keep the website updated and current. Ongoing optimizations of content and structure will be made based on SEO research, trends data, and referral insights.

Data Strategy & Personalization

Utilizing first-party and zero-party data, the brand will work to gain a clearer understanding of our prospective visitors' behaviors and implicit desires to build a personalized, one-to-one communication strategy. This starts at the VisitBluffton.org website and extends to our email communication and throughout our entire digital marketing strategy.

The Visitor & Convention Bureau will create a data-driven, always-on, relevant, and compelling content strategy that matches the visitors' mindset and interests. As prospective visitors move through their journey the brand will continue to tailor messaging utilizing sequential storytelling to make the destination experience more relevant to each individual visitor. Ultimately, the ongoing analysis of audience data will provide us with insights to make informed choices about market opportunities and high-value audience segments, which will lead to higher engagement with the destination and more outbound referrals to partners.

Social Media

Social media continues to be a strong performing platform for the destination. In 2023-2024, we will continue to strategically grow our following and engagement.

Tangible Goals:

- Grow total social media following by 10%
- Grow total engagements across all social media platforms by 10%
- Grow total impressions across all social platforms by 10%
- Increase website traffic via social by 10%
- Drive the discovery and exploration of the destination with deeper storytelling of destinations key attributes.

These are the channels that best support Bluffton's tangible goals:

Facebook: Facebook has 2.91 billion monthly active users and is our most high-value social channel. Our approach to Facebook is to incorporate a range of content, user-generated content shared by locals and guests, co-ops, one-off and ongoing events, and planned activities like tours, and the Farmers Market of Bluffton.

YouTube: YouTube is the second most engaging website globally and is also the second most popular search engine after Google. YouTube launched YouTube Shorts which expresses the importance of developing a bank of short-form video assets. Our Explore Bluffton video series was released in 2021 and we continue to promote these videos on our social channels directing users to YouTube. We will continue to promote the videos on our social channels to bring users to YouTube. This year we will work to put together a list of additional businesses and community members to film more videos to further engage the community, promote the destination, and grow our YouTube channel.

Twitter: We will continue to leverage Twitter as a secondary channel for Bluffton as a place to reshare user-generated content, event announcements and relevant news. Our posting cadence on this channel is twice a week, and will remain as such as we continue to focus on our short-form video and UGC strategy which is in line with social media trends and where we see the most positive engagement from our audience.

Instagram: Instagram's strategy will continue to focus on curating user-generated content from talented guests and locals to support Bluffton's messaging. Our biggest push on this channel will be to engage in two-way conversations with our followers, to encourage them to mention our channel in their owned content, and to promote the #LoveBlufftonSC hashtag. We will also focus on curating a more aesthetically-consistent feed, using warm photo filters that portray the sunny, Southern vibe of the Lowcountry. A heavy focus on Instagram story series will get shared to further connect with followers in real-time. We will develop engaging reels to promote the town with trending music and hashtags. One Instagram guide will get shared each month to live on the Instagram page. This blog-type style post brings together various user generated content (UGC) posts and helps with planning a trip to the destination..

TikTok: TikTok has over a billion active users and is starting to become the leading platform for travel tips, hacks, and must-see/do experiences within a destination. In the fall of 2022, we launched the official Bluffton TikTok channel and have made excellent strides in follower growth, views and likes. As TikTok continues to develop its features it provides us with unique story-telling opportunities to reach a new and broader audience and repurpose our high-performing reels content from Instagram to reach new audiences.

Pinterest: We will continue to develop and share a mix of highly designed imagery on the platform to build a bank of pins on Bluffton's Instagram channel. Our goal is to grow the following and increase the overall engagement on the page. We will do this by sharing content related to Bluffton, and connecting the pins with the relevant blogs.

Email Marketing

Increased efforts to personalize the customer journey will include a dedicated email strategy, along with new and relevant drip campaigns mapped to the refreshed segments. These drip campaigns will be integrated with all key customer touchpoints where users are provided the opportunity to connect with the brand via email in exchange for invaluable content related to the destination. Bluffton's email efforts will be informed by SEO research and tested and optimized over the course of the year.

LoveBlufftonSC Blog

Our Bluffton blog will drive qualified, engaged traffic to VisitBluffton.org. It's a landing place

to bring people in from our social feeds, and a great jumping-off point to show users what is happening in Bluffton. Tied closely to search engine results, our goal with the Bluffton blog is to create a useful tool for fun, inspiration, informational, travel tips, news, and more. Content on this channel to be used cross-promotionally on other channels could include:

- Long-form, editorial pieces
- Recipes and "insider tips" from partner restaurants, hotels, and attractions
- Itineraries:
 - For Different Demographics
 - For Different Interests
 - For Different Vacation Lengths
- Bluffton local features

Leisure Media Campaigns

Bluffton is well positioned with the product travelers are looking to experience. They are looking for open spaces and deep connections with culture, history, cuisine, and natural beauty. Accolades and inclusion on top publication lists bring our brand top of mind for travelers as they look to plan their next vacation.

Our media strategy will focus on infusing local personality into our media efforts that allows the consumer to connect with the destination and inspires them to travel to Bluffton to discover more. We will further our reach with existing partners we have developed relationships with over the years as well as look to new partnerships to create a more diverse profile, ultimately expanding our visitor demographics. Examples could include, but

not limited to: *Garden & Gun*, *Southern Living*, *Essence Magazine* and *O Magazine (Oprah Magazine)*. We will also look to engage travel advisors as we have seen post-pandemic that more people are engaging their efforts for travel planning.

By utilizing these platforms and endorsements to further amplify our voice, we are able to tell our brand story and leverage our overall marketing to help differentiate the destination from the competitive set and drive awareness and visitation to Bluffton. Growing these relationships with these media partners will also help with our accolades and award designations from these publications.

As we look to build out these media partnerships, we will work closely with the Town of Bluffton to determine which publications are the best fit for the overall strategy and goal of our marketing plan efforts.

Destination Public Relations

Earned media secured through public relations initiatives is a critical driver for destination awareness. As we look to the year ahead, it is important to note that the media landscape is shifting with more consumers getting their news and entertainment through mobile and digital platforms. We are also seeing influencers maintain their status as a trusted resource, inspiring purchase intent through their engaged following and curated content.

Despite economic challenges and inflation, travel demand has been consistently thriving over the past year. Consumers are looking to escape the nuances of daily life for a vacation and are not deterred by surging prices.

While leveraging core public relations tactics, we will continue to stay tapped in with our media contacts and remain agile throughout the next wave of media trends. With this approach, we will harness the momentum Bluffton has received to ensure that we remain in consideration as a must-visit U.S. destination as travelers continue to look towards their “escapism” adventures and make a vacation that visitors never want to leave.

Through public relations efforts, we will deliver a continuous drumbeat of media coverage, as well as social and digital chatter, allowing us to move the needle and maintain a competitive edge over like-minded destinations. Our goal is to inspire travelers to explore Bluffton and see for themselves why it is the Heart of the Lowcountry™.

Photography/Videography

We will continue the momentum established by the Explore Bluffton video series and build an up-to-date, engaging, and on-brand bank of image and video assets that can be used across all marketing initiatives. Asset collection will be done strategically to align with planned campaigns, including identifying gaps and analyzing performance to see what assets perform best for our target demographic.

Meetings & Group Sales

Bluffton continues to grow and position itself as a group destination. The variety and quality of experiences for group visitors has never been more diverse, offering a robust arts, historical and cultural scene, with growing culinary experiences. We will continue to promote Bluffton while attending travel tradeshow throughout the country.

Group Tour

Group Tour remains an important market to maintain current and new relationships. Bluffton continues to be an attractive destination for a hub and spoke opportunity. With Savannah 40 miles away, Beaufort 30 miles and Charleston just under 2 hours, the Bluffton region is ideal for groups to stay in one location for up to a week and focus on day trips from one central area.

Industry Partnerships and Tradeshow

In order to achieve our goal of increasing qualified leads, we will continue to foster our industry partnerships with conference or meeting attendance/activations and promotion on their platforms.

Our presence at industry tradeshow continues to reinforce our willingness to partner with meeting planners and increase visibility to decision-makers. This opportunity represents a large portion of our efforts and how we can grow our qualified leads throughout the year; ultimately turning into booked business for the destination partners, heads in beds in key timeframes and accommodations taxes to continue to fill the pipeline year after year.

Collateral and Fulfillment

The Official Bluffton Vacation Planner, our comprehensive guide to what to see and do, is our primary print fulfillment piece for the destination. We receive many online, as well as media and phone inquiries, and distribute the planner to state and local welcome centers, airports, along with tradeshow, events, and to media.

In today's more visual world, telling a story through pictures and graphics appeals more to our target demographic. To further entice these target markets, we have designed the Vacation Planner for visitors to better visualize their vacation and discover what the Town of Bluffton has to offer. This is an important element to the "Travel Planning Journey."

Bluffton's natural beauty is what sets the destination apart from other communities. By tapping into our portfolio of stunning photography and combining it with updated content, we have created a "lookbook" destination discovery publication for visitors to imagine themselves experiencing the Lowcountry.

Impact of Tourism in Bluffton on Beaufort County, 2022

Introduction

This study estimates the economic impact generated by tourism to the Town of Bluffton in the year 2022. It examines the impact of such tourism on the broader economy of Beaufort County, South Carolina, and takes into account the direct spending of the visitors along with the positive secondary effects of such expenditures. The analysis entailed individually estimating the economic impacts associated with overnight visitors and day trip visitors, and then summing them together for an overall total.

This analysis was conducted by Dr. Daniel Guttentag and Melinda Patience of the Office of Tourism Analysis, which is part of the Hospitality and Tourism Management Department in the School of Business at the College of Charleston.

Methodology

The economic impact estimations undertaken for this analysis involved various steps and diverse data. Initially, visitor volume estimates were produced using data on lodging demand provided by STR, combined with visitor behavior data that is collected via a Visitor Profile Survey. The total number of visitors in each segment for 2022 can be observed in Table 1. These figures then were used to estimate the total direct visitor spending associated with each segment. Such spending estimates also relied upon visitor expenditure data collected as part of the previously mentioned Visitor Profile Survey, which asks respondents about their spending in over a

dozen categories (e.g., lodging, food, transportation, and activities). The list of expenditure categories, and the total estimated direct expenditure in each category for 2022, can be observed in Table 2.

The previously described data subsequently were used to determine average per-person expenditures. These figures were combined with the estimated visitor counts and used as inputs for a regional economic impact modelling tool, IMPLAN. IMPLAN is an input-output (I-O) model that uses regionalized economic data and other information to determine economic output that accounts for direct expenditure and the secondary benefits of such expenditure (i.e., indirect and induced impacts). The model further estimates labor impacts and tax revenues.

The following metrics, as estimated by the economic impact model, are covered within this report:

- **Employment:** The number of jobs in the region supported by the economic activity, which involves an industry-specific mix of full-time, part-time, and seasonal employment. Seasonal jobs are adjusted to annual equivalents.

- **Output:** The total value of industry production, which for the service sector represents total sales, for the retail sector represents gross margins, and for the manufacturing sector represents sales minus inventory change.
- **Direct:** The initial effects to local industries that are directly receiving the expenditures of interest.
- **Indirect:** The secondary effects resulting from business-to-business purchases in the supply chain occurring throughout the region, as triggered by or in support of the direct expenditure activity.
- **Induced:** The ripple effects in the region resulting from household spending of income, after the removal of taxes, savings, and commuters.
- **Taxes:** These revenues take into account a variety of taxes, including sales tax, property tax, and income tax. These figures do not account for tourism taxes, such as accommodation taxes.

Results

Following two years of travel behavior being largely shaped by the pandemic, in 2022 travel returned to much more traditional patterns. In particular, urban and international travel, together with business and group travel, rebounded considerably, after previously lagging behind in the travel recovery. As a result, the spike in visitation experienced by many non-urban destinations in 2021 did not continue. This shift in travel behavior inevitably impacted tourism visitation to Bluffton.

Impact of Tourism in Bluffton on Beaufort County, 2022

Nonetheless, the estimated number of visitors in 2022 remained just shy of the record-breaking number set in 2021. Moreover, despite the slight decline in visitor volume, an increase in expenditures led to a record-breaking overall economic impact.

A total of **432 thousand visitors** came to Bluffton in 2022, down 10.4% compared to 2021. The overall economic impact of this tourism on Beaufort County was **\$206.81 million**, up 10.4% compared to 2021. This economic impact represents not just the direct expenditure by visitors, but also the secondary ripple effects of such economic activity that occur as tourism businesses spend operating funds and as tourism dollars are re-spent within the region. Bluffton tourism also (directly and indirectly) supported an estimated **2,526 jobs**, which represent 2.2% of all jobs in Beaufort County, as per employment data provided by the Bureau of Economic Analysis. Similar to the economic impact figure, this employment figure does not refer solely to jobs within the tourism sector, but rather to a combination of full-time, part-time, and seasonal jobs that are both directly and indirectly supported by the broader tourism economy and its secondary effects on non-tourism industries and enterprises. Impact estimates for each of the visitor segments are presented in the Appendix (Tables A1 - A3), and the employment impacts are presented in Figure 1.

The total output multiplier for tourist spending was calculated using the model estimates. This multiplier represents the ratio of total

economic impact to direct spending. The estimated output multiplier for Bluffton tourism on Beaufort County was **1.27**. This signifies that every dollar spent by tourists in Bluffton increased output in the overall Beaufort County economy by a total of \$1.27.

The tourist expenditures generated an estimated **\$2.30 million** in tax revenues for local Beaufort County governments. The Town of Bluffton earned an additional **\$6.51 million** in accommodations tax and hospitality tax, as reported by the Town of Bluffton Revenue Services. Together, this **\$8.80 million** in tax revenue represents an increase of \$1.18 million (15.5%) over 2021. This tax revenue also corresponds with a Return on Tax Investment (ROTI) of 25.34, based on the \$347.4 thousand that was spent on destination marketing in 2022. In other words, each dollar spent by the Visitor & Convention Bureau yielded an estimated return of **\$25.34** in local tax revenue. The comparative relationship over the past two years between destination marketing expenditure and the estimated local tax revenues generated from tourism can be seen in Figure 2.
