

# Protecting Hilton Head's Water

## Why Your Actions Matter

Hilton Head Island has limited freshwater resources that support our community, wildlife, and coastal environment.

### How You Can Help – Every Shift

Simple actions make a big difference:

Turn off taps when not in use

Report leaks immediately

Only run dishwashers when full

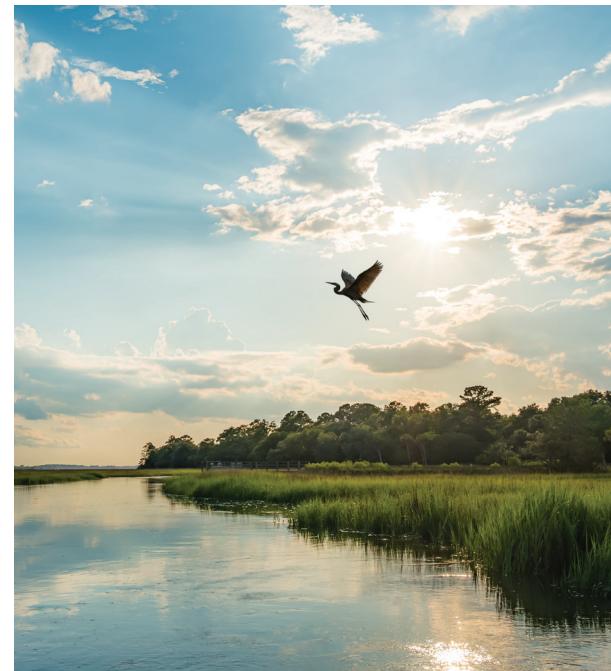

Reuse towels and linens when possible.

Use water efficiently when cleaning and rinsing

**Every gallon we save helps protect:**

- Our beaches and wetlands
- Local wildlife and native plants
- A sustainable water supply for future generations

## Small Actions. Big Impact.

Hilton Head Island has limited freshwater resources that support our community, wildlife, and coastal environment.

Thank you for being a good steward of our island's water.
