

Come in and explore

If it were your first time on Daufuskie Island, could you find your way?

We are the Leadership Program Class of 2016. It is our vision to be the vehicle for better exposure once you have found Daufuskie Island by developing one or more informational kiosks at the main arrival/congregation points on Daufuskie to provide visitors with wayfinding information to the island's business, cultural and historical attractions. We will preserve the character and charm of the island while educating its visitors of historical and cultural landmarks.
